ABOUT US

Rainbow School is a state-licensed preschool serving children ages 3, 4, and 5.

Children must be 3 years old by September 1, 2025 to enroll.

We offer a safe and positive first school experience, focusing on the growth and development of the whole child while also supporting the entire family.

Our dedicated and highly qualified teachers are committed to providing a quality Christian learning environment where each child feels valued and inspired to learn.

We use a variety of engaging, developmentally appropriate curriculums to create meaningful learning experiences.

As part of our program, we incorporate the Second Step Social-Emotional Skills curriculum and Zoophonics, helping children build essential skills for success both in school and in life.

JOIN US

A Welcoming Community for All Families

At Rainbow School, we are proud to welcome families from all backgrounds who are seeking a preschool experience built on the love of God.

We believe every family is a valued part of our community, and we are committed to creating a supportive, inclusive environment where children are nurtured, loved, and encouraged to grow.

Together, we celebrate the unique gifts that each child and family bring to our school.

OUR VISION

We strive to guide children in every area of growth:

Spiritually

We strengthen Christian values and create an environment where God's love is expressed daily through caring relationships with each child.

Socially

We teach, model, and reinforce positive social skills that help children build friendships, show kindness, and work together.

Physically

We offer abundant opportunities for children to develop both large and small motor skills through active play and hands-on experiences.

Emotionally

We create a safe, loving, and accepting environment where every child feels valued, secure, and confident.

Cognitively

We engage children's minds through developmentally appropriate activities and projects that inspire curiosity, creativity, and critical thinking.

A \$75 registration fee is due with enrollment form. Scholarship applications are available depending on funding available.

Maximum class size is 17, with two qualified teachers.
